Personal Website: peternatewood.com

Summary

Passionate Web Developer with excellent computer, organizational, and time management skills. I've always loved building things, whether it was Lego or a new gaming computer, I've loved logic puzzles and problem solving my whole life, and programming can be another form of creative expression, like music.

Technical Skills

- Ruby
- Rails 4
- JavaScript
- ECMAScript 6
- ReactJS
- HTML 5
- CSS 3
- Git
- GitHub
- PostgreSQL
- SQLite 3
- Microsoft Office 356

Projects

Speckles

Mobile game derived from Two Dots and Battleship. It makes use of Apple's Multipeer framework to allow iPhone users to play against each other without cell service or an internet connection. Written in React-Native, using ECMAScript 6.

Tetrelamentis

Web app based on Tetris, in which every block, or "tetromino," is made of a chemical element from the Periodic Table. The Table starts blank, and each new tetromino adds its element to the Table. Compatible with Chrome, Firefox, Opera, Internet Explorer 11, and Safari. Uses JavaScript and the HTML5 canvas tag to render the Tetris board dynamically.

Education

Dev Bootcamp, New York, NY

2016

Intensive, 19 week full-stack web development bootcamp in Ruby, Rails, JavaScript, jQuery, AJAX

Stony Brook University, Stony Brook, NY
